PREFACE

This is one of a series of volumes presenting final results of the 1954 Census of Business for Selected Service, Retail, and Wholesale Trade. Statistics for the Selected Service Trades are contained in two volumes, Volume V and this volume. The 1954 Census, which was conducted by mail canvass of business establishments and by use of Internal Revenue Service records (see "Method of Enumeration" in Introduction), was authorized by law under Title 13, United States code, Section 131. Previous business censuses covered the years 1929, 1933, 1935, 1939, and 1948.

Important to the conduct of the 1954 Census of Business was the cooperation of the Bureau of Old-Age and Survivors Insurance and the Internal Revenue Service in permitting use of certain records thus making possible a material reduction in the cost of enumerating the Census. The Bureau also acknowledges the assistance of many private and public organizations in the planning phase of the census and the excellent cooperation of some 1,750,000 business establishments in completing the required Census forms.

The advice of trade associations, individual businessmen, research and marketing organizations, and government agencies was invaluable in determining the feasibility of collecting various types of data and the methods for minimizing the burden of reporting, as well as in determining the types of information which would be of greatest value. Especially helpful was the Advisory Council on Federal Reports, which through special panels of business experts advised and assisted in the development of inquiries. Because of budgetary and other limitations, it was not possible to collect all of the data recommended by these groups. Timely publicity given to the Business Census by chambers of commerce, business organizations, trade papers, local newspapers, and television and radio stations aided greatly in informing businessmen of the nature and objectives of the census and facilitated the collection of census reports.

Primary responsibility for the 1954 Census of Business program was centered in the Business Division of the Census Bureau, under the direction of Harvey Kailin, Chief of the Division. Louis Greenberg, Chief of the Service Trade Branch, supervised the service trade segment of the Business Census. He was assisted by Harry Kahan, Floyd D. McNaughton, Anna C. Miller, and Joseph E. Quillen of the Service Trade Branch who were chiefly responsible for handling technical problems.

Processing of the 1954 Census of Business reports was performed by the Economic Operations Division, under the supervision of M. D. Bingham, Division Chief, and Irving Weiss, Assistant Chief. Donald K. Weasmer, then Chief of the Retail and Service Census Branch, was responsible for processing Service Trade reports and tabulations. He was assisted by Jack A. Scharff and John S. Lannan.

In the Field Division, Jack B. Robertson, then Chief of the Division; Ivan G. Munro, Assistant Chief; and Arthur L. Cook, then Chief of the Economic Census Branch, directed the field work for the Census of Business.

Important functions were also performed by the Machine Tabulation Division under C. F. Van Aken, Chief. Mrs. Catherine M. Neafsey, Chief of the Economics Section, was responsible for machine tabulation techniques and procedures used in Service Trades tabulations.

Geography Division personnel participating in various phases of Business Census work were Clarence E. Batschelet, Chief; Robert C. Klove, Assistant Chief; and William T. Fay, Chief, Survey Planning Branch.

Donald K. Heiser, Chief of the Electronics Systems Branch, assisted by Rudolph M. Micoly, Chief of Operations for the Branch, was responsible for planning and use of electronic computer and accompanying equipment. Robert H. Brooks, Chief, Graphics Branch, was responsible for preparing Census of Business publications for reproduction. Mrs. Elma Beynon of the Statistical Reports Division reviewed all text material and table forms, and assisted on publications problems.

Volume VI: SELECTED SERVICE TRADES—AREA STATISTICS

United States summary and separate chapters for each State, the District of Columbia, Alaska, and Hawaii. Statistics by counties, cities, and standard metropolitan areas, and by kind of business; with cross classification by kind of business for standard metropolitan areas and for cities and counties with 200 or more service establishments. (Chapters also are issued as separate reports in bulletin series S-1.)

CENTRAL BUSINESS DISTRICT BULLETINS

Central business district statistics are published in a series of separate bulletins comprising a report for each of 95 selected large cities. These bulletins are not bound in a volume. Bulletins contain comparative 1954 and 1948 data on number of establishments, volume of sales (or receipts), and annual payroll for all retail stores and about 25 kinds of retail business, and for hotels and motion picture theaters. Areas for which data are presented include the central business district, the city in which it is located, the standard metropolitan area containing the city, the city outside the central business district, and the standard metropolitan area outside the central business district.

INDEX TO CHAPTERS

The pages of this volume have been numbered independently within each chapter; page numbers consist of two parts, the first part being the chapter number. Thus 1-14, is chapter 1, page 14 (United States Summary); 10-19 is chapter 10, page 19 (Florida); etc. Page 3 of each chapter contains a table of contents for that chapter. A map appears on page 2 of each chapter: in chapter 1, the U. S. map showing Census regions and divisions; in State chapters, a map showing counties and standard metropolitan areas. See "Description of Tables" for titles of tables in each chapter.

INTRODUCTION

The 1954 Census of Business, along with the 1954 Censuses of Manufactures and Mineral Industries, was authorized by law under Title 13, United States Code, section 131. These 1954 Censuses covered businesses operated in continental United States, Alaska, and Hawaii. Separate Censuses of Business and Manufactures for 1954 were also conducted in Puerto Rico jointly with the Commonwealth Government.

The 1954 Census of Business covered Selected Service Trades, Retail Trade, and Wholesale Trade. This volume provides findings for that portion of the 1954 Census of Business which relates to the Selected Service Trades.

KINDS OF BUSINESS COVERED

This report covers all establishments primarily engaged in certain Selected Service Trades, defined in accordance with the principles of the Standard Industrial Classification System, as published in Volume II, Nonmanufacturing Industries (1949 edition) of the Standard Industrial Classification Manual issued under the auspices of the Bureau of the Budget, Executive Office of the President, and subsequently amended by the Bureau of the Budget for use in the 1954 Census of Business. Of the 15 major groups included in the Service Division of the Manual, the 1954 Census of Business includes the following S. I. C. major groups essentially in their entirety:

70. Hotels, camps (rooming and boarding houses, organization hotels and lodging houses have been omitted from the Census).
72. Personal services.
73. Miscellaneous business services (accounting, auditing, bookkeeping have been omitted from the Census).
75. Automobile repair services and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures.

The following major groups of the Service Division as presented in the Standard Industrial Classification Manual are excluded in their entirety from the scope of this Census:

77. Radio broadcasting (including facsimile broadcasting) and television.
80. Medical and other health services.
81. Legal services.
82. Educational services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

METHOD OF ENUMERATION

For purposes of coverage in the 1954 Census of Business, service establishments were divided into two categories—those with any paid employment during 1954, i. e., the "employer" universe; and those with no paid employment during 1954, i. e., the "nonemployer" universe. The method of obtaining Census information for these two groups was as follows:

Enumeration of "Employers."—Information for establishments having paid employees and engaged in the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms which were included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i. e., employers of one or more persons) and which were classified in the records of the Bureau of Old Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, and in major groups 70, 72, 73, 75, 76, 78, and 79 of the Service portion of the Standard Industrial Classification Manual. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business prior to the mailing of Census report forms. Each establishment was mailed a report form appropriate to its BOASI classification (for those cases for which BOASI classification had not yet been established, a general purpose form was used) but its 1954 Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses within the census scope other than those represented in the active FICA records of the Internal Revenue Service. Information for this group of establishments was furnished by the Internal Revenue Service and was derived from the 1954 tax returns. Information was compiled from only one-half of these cases and census results for this group were established by multiplying such findings by 2. The "nonemployer" segment of the Service Trade Census, although making up more than half the establishments, accounted for about 10 percent of the total service trade volume of receipts.

COMPARISON OF 1948 AND 1954 CENSUSES

The 1948 and 1954 Business Censuses differed in several respects which affect to some degree the comparability of data for the service trades. The results of a study being made to evaluate these differences will be included in later publications of the 1954 Census. The more important general differences are discussed in this section. The effect on individual kinds of business is discussed in the KIND-OF-BUSINESS CLASSIFICATION section below.

(1) The 1954 Business Census excludes those service establishments with no paid employment in 1954 which had a receipts volume of less than $1,000 in that year. Previously published results of the 1948 Census excluded establishments which operated the entire year but which had a receipts volume of under $500. However, in this series of 1954 Census publications, the 1948 Census figures have been revised to the same dollar cutoff as was used in the 1954 Census. This change was made to help achieve greater comparability between the two censuses, although it should be recognized that changes in price level which have occurred between 1948 and 1954 have the effect of complicating comparisons between the two censuses. Use of the same dollar volume cutoff does not take into consideration such changes in price level. However, this situation does not importantly affect a comparison between the two censuses with respect to the total dollar volume of receipts, as establishments in this range constitute an insignificant fraction of the service receipts volume.

(2) The adoption of the mail canvass method in the 1954 Business Census, described under METHOD OF ENUMERATION above, made it feasible to extend the coverage of the census to "nonrecognizable" establishments and those closed part of the year because of the seasonal nature of their activities. In the 1948 and previous Business Censuses, coverage was limited to places which were "recognizable" as business establishments to enumerators who systematically canvassed all city blocks, roads, highways, etc. The use of the BOASI mailing lists and IRS records, referred to above, for the 1954 Census made this limitation unnecessary and resulted in the addition to the census coverage

of "nonrecognizable" businesses; e. g., businesses operated from homes or from desk space rented in offices; businesses operated from telephone listings; businesses operated on an itinerant basis, etc. Most of the "nonrecognizable" cases in the 1954 Census are classified in the business service and miscellaneous repair service categories (see KIND-OF-BUSINESS CLASSIFICATION, below). For most kinds of business the effect of the inclusion of "nonrecognizables" is greater on the count of establishments than on the volume of receipts. Where the effect on a particular kind of business is important it is noted in the section on KIND-OF-BUSINESS CLASSIFICATION below.

(3) The change in method of enumeration also resulted in the inclusion in the 1954 Business Census of a number of establishments which were in business a part of 1954 but not at the end of 1954. In the 1948 and previous Business Censuses, the coverage of establishments (except for those of large multiunit organizations for which special canvass procedures were used) was substantially limited to places which, at the end of the year, were still in business. In the 1954 Census, however, the inclusion of establishments not in business at the end of the year was possible to the extent that such establishments were included in the active files of the Internal Revenue Service used for mailing list purposes or to the extent that they were identified in the records used for the "nonemployer" universe. In both 1954 and previous Business Censuses, the count of establishments is limited to those in business at the end of the year. Other items of data in the 1954 Census, however, include figures for part year establishments not in business at the close of the year. The extent to which data for such establishments have been included in the 1954 Census figures will be noted in later publications.

(4) Another important difference between the two censuses is in the treatment of sales, excise, and amusement taxes levied directly on the consumer. In the 1948 Census of Business such taxes were not included in the total receipts of service establishments, whereas they were included in the 1954 Census. The overall effect of this change, however, is believed to be small, as most State service and sales taxes averaged about two or three percent. The most important segment of service trade affected by this difference is the amusement trades. In this field Federal and local tax rates tend to be comparatively high, and the 1954 receipts data will be correspondingly greater.

(5) Comparability of 1948 and 1954 Business Census results is also affected by a change in concept which affects volume of receipts in the Selected Service Trades, in "Business Services" and in "Advertising Agencies." In 1948 receipts of advertising agencies were included net of media costs, whereas in 1954 their receipts included media costs. This results in an estimated increase of over $2 billion in total receipts for the United States.

(6) Comparison of the two Censuses is further qualified by the fact that the scope of the 1954 Census was expanded to include the following kinds of business: Motion picture production, distribution, and allied services; trailer parks; and membership golf and country clubs.

CONFIDENTIALITY OF DATA

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by Census rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

EXPLANATION OF TERMS

Establishments.—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated in accordance with the physical location at which the business was conducted. For purposes of the count of establishments, those which conducted business at some time during 1954 but went out of business before the end of the year are excluded; however, other data pertaining to such establishments are included in the tabulations. (See COMPARISON OF 1948 AND 1954 CENSUSES, Item 3, above.)

Although the tabulations of the Census are on an establishment rather than ownership basis, in certain tables the establishment figures are grouped into ownership categories. This is the case in the bulletin "Single Units and Multiunits" and in a planned company statistics bulletin covering company activities in all parts of the 1954 Censuses of Business, Manufactures, and Mineral Industries.

Where two or more activities were carried on under the same ownership at a single establishment, the entire establishment was classified on the basis of its major activity and all data for it included in that classification. However, when these activities were conducted by separate business entities, each entity was treated as an establishment. Thus, a leased department in a department store (such as a beauty shop) was treated as a separate establishment and is included in these tabulations on the basis of its activities rather than as a part of the store within which it operates.

This bulletin does not include figures for those locations of a multiunit organization which service, or are auxiliary to, the operating establishments of the organization, such as separate garages, administrative offices, etc. Information for this type of unit will be included in later 1954 Census of Business publications. In the 1948 Business Census, figures for such units were included in the Service Trade tabulations, but not separately identified.

Receipts.—Receipts are defined to include total receipts from customers during 1954, after deduction of refunds or allowances to customers. Receipts include receipts from sales of merchandise as well as from services to customers but exclude amounts other than those received from customers, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers, and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, manufacturers, wholesalers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e. g., sales of merchandise at wholesale or retail) by establishments primarily engaged in the selected service trades.

Payroll, entire year.—Payroll includes all forms of compensation (salaries, wages, commissions, bonuses, and payments in kind) paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; however it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll–Workweek ended nearest November 15.—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1954. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees—Workweek ended nearest November 15.—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.—"Full workweek" employees include employees, whether regular or seasonal who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.—Includes owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

CITY SIZE

Each establishment included in the 1954 Census of Business was classified into one of nine city-size groups, based on the number of inhabitants in the city in which the establishment was located. City size was determined by the 1950 Census of Population count, except for places which had special censuses taken by the Bureau of the Census between April 1, 1950, and September 15, 1954. The group entitled "Remainder of United States" included all establishments located in incorporated cities of less than 2,500 inhabitants, and in rural areas.

STANDARD METROPOLITAN AREA CONCEPT

In addition to those for States, counties, and cities, Census of Business statistics are presented for standard metropolitan areas. These are areas which have been defined and established cooperatively by a number of interested Federal agencies under the direction of the Bureau of the Budget for purposes of compilation and presentation of a wide variety of statistical data on a uniform area basis.

The general concept adopted in defining a standard metropolitan area was that of an integrated economic area with a large volume of daily travel and communication between a central city of 50,000 inhabitants or more and the outlying parts of the area. This resulted in an area considerably more restricted, especially for the larger cities, than the "market" or "trading" area. Each area (except in New England) consists of one or more entire counties. In New England, metropolitan areas have been defined on a town basis rather than a county basis. A complete statement of the principles adopted as a guide in applying this general concept to the definition of individual areas will be found in a document issued by the Bureau of the Budget, Executive Office of the President, dated July 28, 1950, entitled "Standard Metropolitan Area Definitions."

The 173 standard metropolitan areas in continental United States and Hawaii for which 1954 Census of Business data are included in this volume are those defined by the Bureau of the Budget as of June 8, 1954. (See list on page 13.)

KIND-OF-BUSINESS CLASSIFICATION

Each establishment was assigned a kind-of-business classification, in accordance with the provisions of the 1949 edition of the Standard Industrial Classification Manual, as subsequently amended by the Bureau of the Budget for use in the 1954 Census of Business.

The problem of classification in the 1954 Census was somewhat complicated by the fact that establishments similar in character could have received different type Census forms on which to report their 1954 businesses. This occurred because the classification information on which the mailing of forms was based was not always complete or sufficiently up to date in terms of what was needed for the final classification. While each of the report forms required the establishment to designate its kind of business, the supporting information which was requested necessarily varied from form to form. In some cases, this undoubtedly resulted in different classifications being assigned similar establishments.

Because "nonemployers" were not required to prepare Census reports (information for them having been furnished by the Internal Revenue Service from 1954 tax returns), the system described above could not be used in classifying their returns. For the "nonemployers" the only information available for classification was the designation or description of the establishment entered on the tax form by the proprietor.

The difference in information collected and in the method of classifying establishments in this Census as referred to above led to some differences in the classification assigned as compared with the one which would have resulted from the system used in previous censuses. Although a precise measure of these differences is not available at this time, it is likely that in most kinds of business the differences in the classifications assigned tended to offset each other.

Known factors which might cause differences in specific kinds of business as compared with past censuses have been noted in the kind-of-business descriptions below.

KIND-OF-BUSINESS DESCRIPTIONS

Kind-of-business definitions are presented below under each of the major groups constituting the Selected Service Trades. In addition, discussions have been included for those kinds of business for which special problems existed.

Personal Services

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops. The kinds of business classified within this group are the same as those included in the Standard Industrial Classification Manual as "Personal Services," major group 72.

Barber shops.—Establishments primarily engaged in furnishing barber services, with the exception of those shops owned by another business, and operated as a part of that business, such as a retail store or hotel. However, barber shop concessions (owned and operated independently), except concessions on trains and steamships, are included in this classification. Barber colleges are also included.

Beauty shops.—Establishments primarily engaged in furnishing beauty services, with the exception of those shops owned by another business, and operated as a part of that business, such as a department store, women's ready-to-wear store, or hotel. However, beauty shop concessions (owned and operated independently) in retail stores or hotels are included. Schools for the instruction of beauty shop operators are also included.

Barber and beauty shops combined.—Establishments which combine the functions of a barber shop and a beauty shop at the same site.

Funeral service, crematories.—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service and other receipts from business activities conducted at the establishment. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service and other items not included in the price of the complete funeral. Crematories operated by cemeteries or those whose primary source of receipts is from space rental or sale, or the sale of interment vessels are not included in the Census.

Photographic studios (including commercial photography).—Establishments primarily engaged in photography for the general public, and commercial users. Included in this classification are portrait photographers; school, home and transient photographers; aerial photographers; and photographic studios servicing advertising agencies, publishers and other commercial users, except motion picture producers.

Shoe repair shops.—Establishments primarily engaged in repairing footwear. Shoe repair departments conducted in connection with other sevice establishments (such as valet shops,

laundries, and cleaning and dyeing plants), or with retail establishments (such as shoe stores and department stores) are not included in this classification, unless independently operated as leased departments or concessions.

Shoeshine parlors.--Establishments primarily engaged in shining shoes. Shoeshine departments of shoe repair shops, valet shops, and other service or retail establishments are not included in this classification, unless independently operated as leased departments or concessions.

Hat cleaning shops.--Establishments primarily engaged in cleaning and blocking hats. Hat cleaning departments of shoeshine parlors, valet shops, and other service or retail establishments are not included in this classification, unless independently operated as leased departments or concessions.

Cleaning, pressing shops, and independent plant outlets.--Independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals. Valet shops and establishments generally known as "tailor shops," primarily engaged in garment pressing, are included in this classification, but custom tailors are classified in Retail Trade. Establishments known as "cleaners" which do no dry cleaning but have their cleaning done for them by cleaning and dyeing plants and independently operated collecting and distributing agencies serving cleaning and dyeing plants or power laundries are included in this classification. Not included in this classification are data for plant-owned shops for the pick-up and delivery of cleaning work. Receipts, employment, and payroll, but not number of establishments data for such shops have been included in the classification "Cleaning and dyeing plants."

Garment repair, alteration (except fur).--Shops primarily engaged in repairing and altering clothing (except fur) for individuals. In the 1948 Census, these establishments were not separately classified, but were included in the classification "Pressing, alteration, garment repair shops (except fur)." "Dressmakers" and shops primarily engaged in reweaving for individuals are included in this classification. Establishments primarily engaged in doing hemstitching, buttonholing, pleating, stitching, and tucking for individuals are classified in "Other miscellaneous personal services, n.e.c."

Fur repair, storage.--Shops primarily engaged in fur repairing and fur storage for individuals. Fur shops primarily engaged in the sale of merchandise from stock, or in making fur apparel to custom order are classified in Retail Trade. Establishments primarily engaged in fur cleaning are classified in "Other miscellaneous personal services, n.e.c."

Cleaning, dyeing plants (except rug cleaning).--Plants primarily engaged in dry cleaning and dyeing apparel and household fabrics. Statistics for establishments primarily engaged in rug cleaning are included in either the classification, "Rug cleaning, repairing plants" or "Rug, furniture cleaning on location." The receipts, employment, and payroll data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are included in this classification but such outlets have not been counted as separate establishments. Establishments generally known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants or units.

Rug cleaning, repairing plants.--Plants primarily engaged in rug cleaning, or in rug cleaning and repairing. Establishments doing repairing only are classified in "Other repair shops, n.e.c." Establishments which do rug cleaning on location are classified in "Rug, furniture cleaning on location."

Power laundries.--Establishments primarily engaged in operating mechanical laundries with steam or other power. Laundries included in this classification may perform cleaning and dyeing operations in conjunction with their major laundry operations. Collecting and distributing units (branch outlets) owned and operated by power laundries are included in this classification but such outlets have not been treated as separate establishments. Also included in this classification are laundries that use family-type washers and obtain more than half of their receipts from drop-off or attended service work. Independently owned agencies for laundry plants are included in the classification "Cleaning, pressing shops, and independent plant outlets."

Self-service laundries.--Establishments generally known as "laundromats" or "launderettes" primarily engaged in renting laundry equipment on their own premises for the use of the public. Establishments which install and operate coin-operated laundering machines in apartment houses are classified in "Coin-operated service machines businesses." Establishments which rent machines, generally to apartment houses, are classified in "Coin-operated machine rental and repair services." Establishments whose receipts from attended drop-off or service work was greater than 50 percent of total receipts were included in "Power laundries."

Industrial laundries.--Establishments primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers, and other users. Such establishments may or may not operate their own power laundry facilities. In the 1948 Census, industrial laundries, when not shown separately, were included in the classification "Power laundries."

Linen supply.--Establishments primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels. Establishments included in this classification may or may not operate their own power laundry facilities.

Diaper service.--Establishments primarily engaged in supplying diapers and other baby linens to homes. Such establishments may or may not operate their own power laundry facilities.

Laundries (except power).--Establishments such as "French," "Chinese," and other laundries designating themselves as hand laundries, primarily engaged in furnishing laundry finishing services. Many of these establishments use some power-driven equipment, but not of the industrial type.

Costume, dress suit rental.--Establishments primarily engaged in the rental of costumes and accessories, tuxedos, or formal attire for personal use.

Turkish bath, massage parlors.--Establishments primarily engaged in furnishing steam baths and massage services.

Rug, furniture cleaning on location.--Establishments primarily engaged in cleaning rugs and furniture in customers' homes or business locations. In the 1948 Census, establishments engaged in rug cleaning on location were not separately classified but were included in the classification "Rug cleaning, repairing plants."

Coin-operated service machine establishments.--Establishments primarily engaged in the operation of coin-operated personal service machines, such as washing machines, drying machines, ironing machines, weighing machines, pay toilets, public lockers (except cold storage), etc.

Miscellaneous personal services, n.e.c.--Establishments primarily engaged in providing personal services, not elsewhere classified, such as personal, marriage, shopping consultants; reducing salons; scalp treatment establishments; social escort service; etc.

Business Services (Except Accounting, Auditing, Bookkeeping)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. The kinds of business classified within this group in the 1954 Census of Business are the same as those classified in the Standard Industrial Classification Manual as "Miscellaneous Business Services," major group 73, with the exception of "Accounting, Auditing, and Bookkeeping Services," group 737, which is not included in the Census of Business.

The effect on coverage of the use of administrative records in the 1954 Census in place of the personal enumeration used in

previous censuses is particularly noticeable for business service establishments. For such establishments, dollar volume and number of establishments are both affected to such an extent as to make comparisons with previous censuses difficult. The degree of comparability is determined by the extent to which establishments in a particular kind of business were "nonrecognizable" by personal enumeration in previous censuses.

For certain types of service establishments such as printing brokers, stamp trading and premium scrip companies, and advertising agencies the total receipts figures in this report include monies and merchandise transferred incidental to the services they provide.

For business service organizations which receive their revenues through a main office, but maintain service branches at other geographical locations, no attempt was made to allocate receipts to service branch locations. Consequently, such offices have been classified as auxiliary offices, and their employment and payroll are not included in this report. Some examples of kinds of business where this occurs are news syndicates, research laboratories, and business marketing and management consultants, and newspaper, radio, television advertising representatives.

Advertising agencies.—Establishments primarily engaged in contracting for space in magazines, newspapers, periodicals; for radio or television time; or for other advertising media on a commission or fee basis. Receipts include commissions and media costs even when such fees are paid directly to the media involved; service fees; and production charges. Establishments which write advertising copy or do commercial art work but do not place advertising with media are not included in the Census of Business.

Outdoor advertising services.—Establishments primarily engaged in the preparation and presentation of poster displays and painted and electric spectacular displays (principally outdoors) on panels, bulletins, and frames. Such establishments may (as incidental services) construct, repair, and maintain display boards and may post advertisements. Shops which make neon signs to order are included in the Census of Manufactures.

Miscellaneous advertising.—Establishments primarily engaged in furnishing advertising services not elsewhere classified, such as advertising research service, handbill distribution, the distribution of samples, and transportation advertising. Establishments which are primarily engaged in writing advertising copy or commercial art work are not included in the Census of Business.

Consumer, mercantile credit; adjustment, collection agencies.—Establishments primarily engaged in mercantile and consumer credit reporting, and privately operated collection or adjustment agencies. Companies engaged in publishing whose primary source of receipts is derived from credit reporting are included in the Census of Business, not in the Census of Manufactures. Insurance adjustment agencies are not included in the Census of Business.

Private employment agencies.—Establishments (nongovernmental) primarily engaged in providing placement and employment service, including modelling agencies and nurses' registries. Not included here are theatrical employment agencies which are classified in "Theatrical presentations and services," and motion picture casting bureaus which are classified as "Services allied to motion picture production."

News syndicates.—Establishments primarily engaged in furnishing news pictures, features, etc., and supplying news reporting services to newspapers and periodicals. Nonprofit syndicates operated on a membership basis, and commercial (nonmembership) news syndicates are both included in this classification.

Duplicating, addressing, mailing, stenographic services.—Establishments primarily engaged in mimeographing, multigraphing, rotoprinting, multilithing, addressographing and mailing services, or in compiling and selling mailing lists; also establishments primarily engaged in furnishing court reporting or public stenographic services. In the 1948 Census, stenographic services were classified separately under "Public stenographic agencies, court reporting."

Blueprinting, photocopying services.—Establishments primarily engaged in reproducing drawings, plans, maps, or other copy, by blueprinting or photocopying.

Disinfecting, exterminating services.—Establishments primarily engaged in disinfecting buildings and in exterminating insects, rodents, etc.

Window cleaning.—Establishments primarily engaged in cleaning windows in business structures and dwellings.

Miscellaneous services to dwellings, other buildings.—Establishments primarily engaged in furnishing specialized services, not elsewhere classified, such as janitorial service, floor waxing, and office cleaning, to dwellings and other buildings. General repair contractors primarily engaged in building and maintenance work are not included in the Census of Business. The cleaning of building exteriors by sand or steam blasting is also outside the scope of the Census of Business.

Auctioneers' establishments (service only).—Establishments primarily engaged in selling merchandise or real estate for others at auction on a fee or commission basis. Receipts of these establishments represent commissions and fees. Establishments primarily engaged in selling their own or consignment merchandise at auction to household consumers are classified in Retail Trade. Auction companies selling farm products or merchandise in large lots (e.g., leaf tobacco, floor coverings, eggs and poultry, fruit, vegetables, etc.) are classified in Wholesale Trade. Community sales at which goods are sold at auction at the farm or house site, or in "community barns" are not included in the Census of Business.

Coin-operated machine rental, repair services.—Establishments primarily engaged in renting and repairing coin-operated machines. Establishments engaged in the operation of coin-operated machines (such as scales, pin ball machines, juke boxes, vending machines, etc.) are classified as "Personal services," "Amusement, recreation services," or Retail Trade, depending upon the type of machines operated.

Detective agencies.—Establishments primarily engaged in providing the services of detectives for investigative purposes, either for individuals or businesses. Establishments primarily engaged in providing patrolling, watching or night protective services are included in "Other business services, n.e.c."

Interior decorating service.—Establishments primarily engaged in advising clients on the selection of furniture, draperies, rugs, and other interior decorations, on a fee or commission basis. Establishments providing an interior decorating service but primarily engaged in the sale of merchandise are included in Retail Trade. Painting and papering contractors who frequently term themselves "interior decorators" are not included in the Census of Business.

Photofinishing laboratories.—Establishments primarily serving the photographic trade and general public in the processing of still and motion picture films, photoprinting, and related services. Establishments primarily engaged in processing theatrical and nontheatrical motion picture film for the motion picture industry are classified in "Services allied to motion picture production."

Sign painting shops.—Establishments primarily engaged in making signs to individual order or in office door and window lettering. Establishments primarily engaged in making signs other than on a custom basis, and neon sign manufacturers, are included in the Census of Manufactures.

Telephone answering service.—Establishments primarily engaged in transmitting telephone messages between patients and physicians, clients and lawyers, or for other professional and business firms.

Window display service.—Establishments primarily engaged in decorating or "trimming" shop windows with display merchandise or advertising matter.

Other business services, n.e.c.—Establishments primarily engaged in furnishing business services not elsewhere classified. Some of the more important are advertising representatives for radio, television, and publishers, armored car services, burglar alarm services, business research and consulting services, equipment and machinery rental, designing services, inspection services, management services, market research services, packaging services, printing brokers, sales promotion services, trading stamp services, watching and protective services, and water softener services. Commercially operated research agencies and testing laboratories are included in this classification, but nonprofit research agencies are not included in the Census of Business.

Automobile Repair Services, Garages

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not for the general public, are treated as auxiliary establishments of those concerns and are not included here. Automobile repair departments maintained by establishments engaged in the sale of automobiles are classified in Retail Trade. Gasoline service stations are also included in Retail Trade. The kinds of business classified within this group are the same as those included in the Standard Industrial Classification Manual as "Automobile Repair Services and Garages," major group 75.

General automobile repair shops.--Establishments primarily engaged in the general repair of automobiles. Establishments which have an active franchise for the retail sale of new passenger cars are included in Retail Trade, even though their principal source of receipts may be from automobile repairs.

Battery, ignition repair and service.--Establishments primarily engaged in repairing, recharging, and renting storage batteries, and in repairing automobile ignition systems.

Glass replacement, repair.--Establishments primarily engaged in the replacement of automobile glass.

Paint shops.—Establishments primarily engaged in automobile painting and refinishing. Paint shops of establishments primarily engaged in top and body repair are included in the classification "Top and body repair shops."

Radiator repair shops.—Establishments primarily engaged in the repair and cleaning of automobile radiators.

Tire repair shops.--Establishments primarily engaged in repairing, recapping, and retreading automobile tires for others. Establishments primarily engaged in retreading or rebuilding automobile tires on purchased carcasses are included in the Census of Manufactures.

Top and body repair.--Establishments primarily engaged in the repair of automobile tops and bodies. Paint shops maintained by such establishments are included in this classification.

Brake repair shops.—Establishments primarily engaged in relining, repairing, and adjusting automobile brakes.

Wheel, axle, spring repair shops.—Establishments primarily engaged in the repair and alignment of automobile wheels, and the repair and installation of automobile springs and axles.

Other automobile repair shops, n.e.c.--Establishments primarily engaged in specialized automobile repairs, not elsewhere classified (such as automobile radio repair, carburetor repair, piston ring service and repair, and speedometer repair).

Parking structures, storage garages.--Establishments primarily engaged in operating structures for the live storage of automobiles. Long time or dead storage of automobiles is not within the scope of the Census of Business.

Parking lots.—Establishments primarily engaged in the temporary parking of automobiles on open air lots, usually on an hourly or daily basis.

Automobile, truck rentals (without drivers).—Establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors, without drivers. This classification also includes the rental of trailers and semi-trailers, including automobile utility trailers and house trailers.

Automobile laundries.—Establishments primarily engaged in washing automobiles.

Automobile services, n.e.c.--Establishments primarily engaged in furnishing automobile services, not elsewhere classified (such as lubricating service, waxing service, and towing service).

Miscellaneous Repair Services

This major group includes establishments primarily engaged in miscellaneous repair services, such as blacksmith shops; electrical repair; radio and television repair; watch, clock and jewelry repair; and upholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classifications unless operated as separate establishments, and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship and boat repair, included in the Census of Manufactures. The kinds of business classified within this group in the 1954 Census of Business are the same as those included in the Standard Industrial Classification Manual as "Miscellaneous Repair Services," major group 76.

The effect on coverage of the use of administrative records in the 1954 Census is particularly noticeable for the kinds of "Miscellaneous repair" business listed below. For such kinds of business, dollar volume as well as number of establishments are both affected to such an extent as to make comparisons with previous censuses difficult. The degree of comparability is determined by the extent to which establishments in these kinds of business were "nonrecognizable" by personal enumeration in previous censuses:

Radio, television repair shops
Refrigerator service, repair shops
Other electrical repair shops, n.e.c.
Armature rewinding, electric motor repair and rebuilding
Musical instrument repair shops
Welding repair shops
Other repair shops, n.e.c.

Watch, clock, jewelry repair.--Establishments primarily engaged in the repair of watches, clocks, and jewelry. Such establishments frequently operate as leased departments in other business establishments, such as jewelry stores.

Upholstery, furniture repair shops.--Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual order are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

Radio, television repair shops.--Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated separately and reported as such.

Refrigerator service, repair shops.--Establishments primarily engaged in servicing and repairing household and commercial refrigerators. Establishments primarily engaged in servicing and repairing gas refrigerators are included in "Other repair shops, n.e.c."

Other electrical repair shops, n.e.c.--Establishments primarily engaged in the repair of electrical equipment and electrical appliances (washing machines, vacuum cleaners, irons, toasters, etc.), other than radio and television sets and refrigerators. Electrical contractors, and electrical shops engaged primarily in house wiring, are not included in the Census

of Business. Armature rewinding and the repair of electric motors are included in "Armature rewinding, electric motor repair and rebuilding."

Blacksmith shops.—Establishments primarily engaged in hand forging, horseshoeing, and other blacksmith operations involving the use of an anvil and forge. Many of these establishments also repair farm implements, automobiles, and machinery.

Armature rewinding, electric motor repair and rebuilding.—Establishments primarily engaged in rewinding armatures, repairing electric motors, and repairing and rebuilding transformer and control equipment. Other activities may include the sale of new and rebuilt motors and electric equipment. Establishments primarily engaged in the sale of electric motors and other electrical equipment for industrial use are included in Wholesale Trade.

Bicycle repair shops.—Establishments primarily engaged in the repair of bicycles.

Leather goods repair shops.—Establishments primarily engaged in the repair of saddlery, harness, pocketbooks, luggage, or other leather goods. Repair departments operated as part of retail businesses are included in Retail Trade unless independently owned and operated.

Locksmith, gunsmith shops.—Establishments primarily engaged in repairing locks or guns, and in making lock parts or gun parts to individual order.

Musical instrument repair.—Establishments primarily engaged in the repair of musical instruments and in the tuning and adjustment of pianos and organs.

Lawnmower, saw, knife, tool sharpening and repair shops.—Establishments primarily engaged in sharpening and repairing lawnmowers, saws, knives, and tools. In the 1948 Census, lawnmower sharpening and repair shops were classified separately.

Typewriter repair shops.—Establishments primarily engaged in the servicing and repair of typewriters.

Welding repair shops.—Establishments primarily engaged in welding repair work. Welding primarily in connection with the manufacture of a product is not included in the Census of Business.

Other repair shops, n.e.c.—Establishments primarily engaged in specialized repair services, not elsewhere classified. The following are a few of the repair services in this classification: Aircraft repair, boiler repair, Diesel engine repair, farm equipment repair, general repair, machinery repair, mattress renovating and repair, neon sign repair, oil field equipment repair, and truck body rebuilding and repair. Machine shops engaged 90 percent or more in repair are also included in this classification.

Amusement, Recreation Services (Including Motion Pictures)

This major group includes establishments primarily engaged in providing amusement, recreation or entertainment, except that recreational and amusement activities of educational organizations, governmental units, and nonprofit membership organizations (with the exception of golf and country clubs) have been excluded from the Census. Gambling businesses, except in the State of Nevada, have also been excluded. Noncustomer receipts, such as income from the broadcasting of sporting events and from concession operators, are not included in receipts data. The kinds of business classified within this group in the 1954 Census of Business are the same as those included in the Standard Industrial Classification Manual as "Amusement and Recreation Services," major group 79, and "Motion Pictures," major group 78.

The effect on coverage of the use of administrative records in the 1954 Census is particularly noticeable for the kinds of "Amusement, recreation services" listed below. For such kinds of business, dollar volume and number of establishments are both affected to such an extent as to make comparisons with previous censuses difficult. The degree of comparability is determined by the extent to which establishments in these kinds of business were "nonrecognizable" by personal enumeration in previous censuses:

Bands, orchestras, entertainers
Dance halls, studios, schools
Horse race track operation (including stables)
Golf courses
Coin-operated amusement device establishments

Motion picture theaters (except drive-in).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and portable motion picture theaters are included in this classification. Drive-in motion picture theaters are classified separately.

Drive-in motion picture theaters.—Theaters primarily engaged in the outdoor exhibition of motion pictures commonly known as "open-air" or "drive-in."

Motion picture production other than for television.—Establishments primarily engaged in the production of theatrical and nontheatrical motion pictures for exhibition other than for television. Included in this classification are establishments of producer-distributor organizations. Services allied to motion picture production are classified separately.

Motion picture production for television.—Establishments primarily engaged in the production of theatrical and nontheatrical motion pictures for television exhibition. Included in this classification are establishments of producer-distributor organizations. Services allied to motion picture productions are classified separately.

Motion picture film exchanges other than for television.—Establishments primarily engaged in renting theatrical and nontheatrical film to exhibitors other than in the field of television. Included in receipts are film rentals derived from foreign countries. Services allied to motion picture distribution are classified separately.

Motion picture film exchanges for television.—Establishments primarily engaged in renting theatrical and nontheatrical film to exhibitors in the field of television. Included in receipts are film rentals derived from foreign countries. Services allied to motion picture distribution are classified separately.

Services allied to motion picture distribution.—Establishments primarily engaged in performing auxiliary services to motion picture distribution such as film delivery service, film buying and booking agencies, and film libraries.

Services allied to motion picture production.—Establishments primarily engaged in performing services independent of motion picture production but allied thereto such as film processing, editing, and titling. Also included are casting bureaus, wardrobe and studio property rental, and the rental and repair of cameras and other motion picture equipment.

Billiard, pool parlors.—Establishments engaged in the operation of billiard and pool parlors. In the 1954 Census, establishments reporting as billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts, were classified in Retail Trade. In the 1948 Census, establishments reported as billiard and pool halls with merchandise sales in excess of fifty percent of the total revenue were classified in Retail Trade.

Bowling alleys.—Establishments engaged in the operation of bowling alleys. In the 1954 Census, establishments reporting as bowling alleys, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade. In the 1948 Census, establishments reported as bowling alleys but with merchandise sales in excess of fifty percent of the total revenue were classified in Retail Trade.

Automobile race track operation.—Establishments primarily engaged in the promotion of automobile and motorcycle racing and establishments engaged in the operation of racing cars for purses. In 1948, operation of racing cars for purses was not included in the Census.

Dog race track operation.—Establishments primarily engaged in the promotion of dog racing by kennel clubs and establishments operated by owners of greyhounds racing for purses. In 1948, operation of greyhound "stables" was not included in the Census.

Horse race track operation (including racing stables).—Establishments primarily engaged in the promotion of horse racing and in operation of racing stables. In the 1948 Census, the operation of racing stables was not included in the Census of Business.

Baseball clubs.—Operators or promoters of professional and semiprofessional baseball clubs. Receipts of such establishments do not include revenue from radio or television broadcasting, from sale of players, from concession operators or other noncustomer revenue.

Football clubs.—Operators and promoters of professional or semiprofessional football clubs. Receipts of such establishments do not include revenue from radio or television broadcasting, from sale of players, from concession operators or other noncustomer revenue.

Other sports clubs, promoters.—Promoters of boxing, wrestling, hockey, basketball, and other athletic events not classified elsewhere. Stadiums and athletic fields are included if the operators are actually engaged in the promotion of athletic events. Establishments primarily engaged in renting of stadiums and athletic fields to sports promoters and clubs are classified as real estate and such establishments are not included in the Census of Business.

Bathing beaches.—Establishments primarily engaged in the operation of bathing beaches open to the general public, on a fee basis. Municipal or membership operated bathing beaches are not included in the Census of Business.

Golf courses.—Establishments privately owned and primarily engaged in the operation of golf courses open to the public, on a fee basis. Municipally owned and operated courses are not included. Membership golf and country clubs are included as a separate classification. Miniature golf courses and golf driving ranges are classified as "Other amusement, recreation services, n.e.c."

Riding academies.—Establishments primarily engaged in operating academies and riding schools open to the general public.

Skating rinks.—Establishments primarily engaged in operating rinks for roller or ice skating open to the general public. In the 1948 Census, roller skating rinks and ice skating rinks were classified separately.

Swimming pools.—Establishments primarily engaged in the operation of swimming pools open to the general public. Municipally and membership operated swimming pools are not included in the Census of Business.

Boat, canoe rentals.—Establishments primarily engaged in renting small boats and canoes to the general public. Those establishments which rent craft with operators or are engaged in furnishing powerboat rides are classified under "Other amusement, recreation services, n.e.c." In the 1948 Census, establishments which rented craft with operators, or furnished powerboat rides, were omitted.

Other commercial sports operators, n.e.c.—Establishments primarily engaged in the sports operation, not elsewhere classified, such as gymnasiums, tennis, badminton, or jai alai courts; golf professional, swimming or ski instructors; archery ranges, ice skating schools, and bicycle rentals. In the 1948 Census, bicycle rentals were classified separately.

Theatrical presentations and services.—Companies primarily engaged in presenting "live" productions. These include opera companies, concert organizations, road companies, stock companies, burlesque houses, ice shows and producers of night club, radio and live television shows. This industry also includes services connected with theatrical production, such as theatrical and radio employment agencies; booking agencies for plays, artists and concerts; scenery, lighting and other theatrical equipment service; and ticket agencies for theater and sports events. Rodeos, marionette and puppet shows, and thrill shows are classified as "Other amusement, recreation services, n.e.c." Individual entertainers have been excluded from the Census. Theaters which are normally rented to theatrical producers, stock companies, etc., are classified as real estate operations and are not included in the Census of Business.

Bands, orchestras, entertainers.—Dance bands, orchestras, and entertainment groups for private dances, restaurants, etc., operating on a fee or contract basis. Symphony orchestras, opera companies, and classical music organizations, such as string quartets, are included in "Theatrical presentations and services."

Dance halls, studios, schools (except children's professional).—Includes public dance halls or ballrooms catering to the general public. Also included are dance schools engaged in teaching ballroom dancing to adults, but not children's or professional dancing schools. Halls rented for private dances, or for occasional dances sponsored by fraternal or other organizations, are classified as real estate enterprises and are, therefore, excluded.

Membership golf, country clubs.—Establishments primarily engaged in the operation of golf or country clubs restricted to club members or their invited guests. Such establishments are classified as Service, regardless of the proportion of receipts derived from food or liquor sales. Other private clubs, such as yacht, hunting, social, etc., are excluded. Membership golf and country clubs were not included in the 1948 Census.

Amusement parks, devices, shooting galleries.—Establishments primarily engaged in the operation of amusement parks, amusement device concessions, shooting galleries, picnic grounds, kiddielands, and games of skill and chance. Municipally owned amusement parks are not included. Amusement devices located in amusement parks or operated in connection with fairs, circuses, etc., are included as separate establishments in this industry only if they are operated on a concession basis.

Carnivals, circuses.—Companies engaged in the operation of circuses having acrobatic and animal shows, and individual circus acts. Carnivals, side shows, and country fairs are also included in this classification.

Coin-operated amusement device establishments.—Establishments primarily engaged in operating coin-operated amusement devices either in their own or in other places of business. Such amusement machines include juke boxes, pinball machines, mechanical games, slot machines (where legally authorized) and similar types of amusement equipment. Penny arcades and amusement parlors are also included in this industry.

Other amusement recreation service, n.e.c.—Amusement and recreation services, not elsewhere classified, such as exhibitions, domino parlors, pony tracks, scenic attractions, miniature golf, golf driving ranges, and wired music.

Hotels, Motels, Tourist Courts, Camps

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the census.

Although the techniques used in taking the 1954 Census could have resulted in some differences in classification and coverage of establishments in this group as comapred with previous censuses, these differences generally did not importantly affect comparability with previous census results. Outlined below are the main problems stemming from the use of administrative records in the 1954 Census for these kinds of business:

(1) In the 1954 Census, a different report form was used for employer establishments which were classified as "hotels" in the records of the Bureau of Old Age and Survivors Insurance (BOASI) from that used for establishments which in the BOASI

records were classified as "motels," "trailer parks" or "sporting and recreation camps." Because of the lack of entirely objective criteria for distinguishing between these two categories of establishments, it is possible that similar establishments could have been assigned different classifications depending on the report form used. In previous censuses, where the classification was made by enumerators, there was a similar problem of classification. It is possible that enumerator assigned classifications in previous censuses did not coincide with the classifications assigned in the 1954 Census for the same establishments.

(2) In order to account for hotels operated by firms classified in the real estate business by BOASI, hotel report forms were mailed to all BOASI reporting units with eight or more employees in that classification. However, reporting units with fewer than eight employees were not canvassed in the Census. To the extent that these units may have operated hotels or other lodging places, such places would not have been included in the Census.

(3) In the 1954 Census, the classification of establishments with no paid employees was based on a brief kind-of-business description entered on the tax form. The necessity for relying on this description could have resulted in the exclusion of some establishments which might properly belong in the scope of the census. If, for example, in filing an income tax report, the proprietor of a lodging place at a resort area described his business as operating a rooming or boarding home, the establishment would have been omitted from the census as being out of scope. In 1948, using personal enumeration, the same establishment could have been classified by the Census enumerator as a hotel if it had a sign designating itself as a hotel. The effect on the statistics of dollar volume of hotel business of establishments where this and similar problems of classification are likely to occur would, however, be slight since these are typically small establishments.

(4) It is likely that, in the case of establishments with no paid employment, some establishments, which by 1948 Census rules would have been classified as "eating" or "drinking" places, were classified in the 1954 Census as hotels. This could have resulted because, for establishments with no paid employees, there was no means for applying the 1948 Census rule which excluded from the hotel category those establishments with fewer than 25 guest rooms which had less than 5 percent of receipts from room rental. As this difference in procedure is limited to small establishments, i.e., those with no paid employment, the effect is more apparent in count of establishment than in receipts or other figures shown in the Census reports. The effect of the difference in 1948 and 1954 classification procedures on the count of hotels is particularly marked in the case of Pennsylvania.

In the 1954 Census, Sporting and Recreational Camps were added to the scope of the Census of Business. Because of difficulties in making definitive classifications in all cases, some of these establishments in previous censuses probably were classified as hotels or motels.

Hotels.—This classification consists of establishments known as hotels, engaged in providing lodging, or lodging and meals, to the general public. In 1954, hotels were included regardless of the number of guest rooms; in 1948 hotels with less than 6 rooms were omitted. Hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients are included. Rooming and boarding houses, private residences commonly known as tourist homes and apartment or residential hotels which provide no accommodations for transients are not included in the Census of Business.

Year-round hotels.—Hotels which normally are in operation at least 9 months of the year.

Seasonal hotels.—Hotels which normally are in operation less than 9 months of the year.

Motels, tourist courts.—This classification consists of establishments known as motels, tourist courts, tourist camps, or motor courts primarily engaged in providing accommodations in furnished cabins or similar structures. In 1954 motels and tourist courts were included regardless of the number of rental units; in 1948, motels and tourist courts with less than 3 rental units were omitted. Tourist homes (private residences furnishing lodging to motorists) are excluded from the census. Commercially operated sporting and recreational camps (such as boys' and girls' camps, fishing and hunting camps, and dude ranches) are separately classified.

Trailer parks.—This classification consists of establishments known as trailer parks, primarily engaged in renting trailer space and providing utilities such as water and electricity. Trailer parks were not included in the 1948 Census of Business.

Sporting, recreational camps.—This classification consists of commercially operated sporting or recreational camps providing lodging or lodging and meals. These include boys' and girls' camps, fishing and hunting camps, and dude ranches. Camps primarily receiving their financial support from subsidies, donations, contributions, etc., are not included. Summer day camps where the children return home each night are excluded as are also establishments operated by membership organizations and not open to the general public.

Form Approved Budget Bureau No. 41-54354

Form BC **I-1** Personal, Business, Repair Service

U. S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS
Washington, D. C.

1954 CENSUS OF BUSINESS

Please complete and return this form to the Bureau of the Census Office shown on the enclosed envelope **not later than 30 days after you receive it.**

A separate report is required for each establishment (place of business). If you owned more than one place of business in 1954, but have received a report form for only one place:

a. Complete only lines c, d, and e of item 1.

b. In the "Remarks" section of the report, list each establishment, indicating whether it is retail, wholesale, etc., and its kind of business.

c. Return this form using the enclosed envelope and you will be sent the appropriate report forms for completion.

NOTE: Those companies receiving Form NC-X2 with their 1954 census report forms should use it (instead of following the above instructions) to request additional forms.

Please read all instructions and fill in all items, entering "None" when applicable. You may report fiscal-year figures.

Cents may be omitted in preparing this report. If cents are reported, use the spaces provided.

ITEM 1.—IDENTIFICATION OF ESTABLISHMENT

a. Enter the name by which this establishment is known to its customers.

_____

b. Location of establishment

(1) Is this establishment physically located **within the actual legal boundaries** of any city, town, or village? ☐ Yes ☐ No

Line b (1).—Check "No" if the establishment is not within the boundaries of any city, town, or village, even though the mailing address of the business is in such a place. Check "Yes" if the establishment is physically located in such a place even though the business mailing address is elsewhere.

(2) **Actual location** of this establishment

For establishments checking "Yes" in item 1b (1):

(a) Street and number at establishment location _____

Name of city, town, or village _____
(This must be the city, town, or village within whose boundaries the establishment is actually located, even though mailing address of the business is in a different place.)

County _____ State _____

For establishments checking "No" to item 1b (1):

(b) Street, road, or highway and number (if any) or other description of establishment location _____

County _____ State _____

Line b (2) (b).—In the first blank space, give a description by which your establishment can be located. In the spaces provided, name the county and State in which your establishment is actually located.

c. **Federal Social Security Employer Identification Number**..... _____

*Data not comparable with 1954 because of difference in enumeration techniques in the two censuses (see text).

[1]Data in this table differ from those which appeared in the 1948 Census of Service Trade. Such data were adjusted to exclude data for establishments with no payroll which had receipts of less than $1,000.

[2]Includes industrial laundries.
